

Biological seasonal survey in the Northeast Asia (NEAR Environmental Project)

How to install of “iNaturalist”(observation application) ~ Android version ~

Let's survey by putting the observation application “iNaturalist” in your smartphone!

1 Install app and register account

This mark is a Landmark!

- ① Install app by reading QR code (right), using your smartphone or tablet PC.
- ② Launch the app, and Tap “Sign up now!” at the bottom of the page.
- ③ Set your email address, password and username, and register your account.
 - * Username will be published on iNaturalist. (A nickname is acceptable.)
 - * Only “Latin alphabet” “Number” and “Hyphen” can be used for the username and password.

2 Choose a project

This mark is a Landmark!

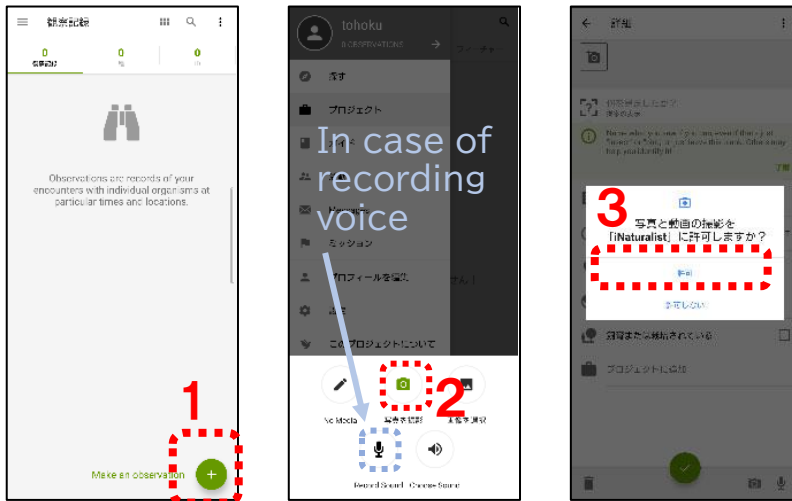

- ① Tap the three-line mark on the upper left, the menu screen (②) will appear from the left.
- ② Select “Project”.
- ③ On the project screen, tap the magnifying glass icon.
- ④ Enter “Near env” in the search window and select “Biological seasonal survey in the Northeast Asia (NEAR Environmental Project)”.
- ⑤ Tap “Join”.

3 Take a photo / voice recording of the observed organism

* In advance, allow the iNaturalist app to use location in the settings of your smartphone, and when using the app, turn on location information before taking a picture.

- ① Tap 1→2→3 in the figure below to start the camera.
- ② Take a picture (or record a voice of organism)

Tips for taking pictures

★Animals

Taken from various angles such as the whole, front, side.

★Plants

Taken so that the entire tree and the close-up of flowers and leaves are reflected.

4 Enter the species name of the observed organism

- ① Tap “What did you see?”, you can see a list of candidate species names.
- ② Select a species from the candidate list or enter the species name yourself.

5 Upload photo/audio and observation records (= Posting completed!)

- Enter “flowering”, “first look”, etc. in the memo field, Tap “Share” to complete the posting!

Example of description

- flowering of cherry blossoms
- first cry of sword
- first look at dragonfly
- etc.
