

Report of the Environmental Poster Exhibition in the Northeast Asia, 2017

We organized “the Environmental Poster Exhibition in the Northeast Asia” in Heilongjiang, China. The theme was environmental conservation. The exhibition would be an opportunity for citizens to raise more awareness of environment in the region. The posters created by children of 6 municipalities from China, Japan, Korea and Russia were exhibited.

2 Scenes of Exhibition

<Voices from visitors >

- Young people in these countries have the same recognition and awareness of environmental conservation.
- It is wonderful opportunity because it works as the cultural exchange and serves to

promote environmental conservation in the Northeast Asia.

- It helps to strengthen the cultural exchange in the Northeast Asia and establish “Community of Interest” and “Community of Common destiny.” .
